

New eco tube laminates

Two monomaterial solutions of laminates for tube making:

Blueloop tube ONE 300:

- Alternative to ABL 390 μ and ABL 350 μ laminates
- Material saving opportunity up to 37%
- Sustainable solution – RecyClass approved - recyclable in HDPE (coloured) bottle stream
- Ultra high barrier without EVOH
- Improved stiffness
- Very high opacity
- Available in white and silver shine
- Food compliance, perfect opportunity for HealthCare products

Blueloop tube RevCo:

- Special coated laminate in 250 μ
- Sustainable solution – RecyClass approved
- Perfect cost opportunity by saving plastic
